Colourful tiles can take your living space from a plain and impersonal neutral zone to a stylish and fresh space.

It can wake up a plain decor or create an eye-catching feature. So, why not give your walls and floor the bold attention they need with some power-packed colour.

There is something quite playful and exotic about bright and bold colour in our decor. Simple, no-nonsense shades give your home oodles of uplifting energy and spirit, whether it's on the bathroom wall, the kitchen floor or a feature wall in your living room.

Bold colour

Strong colours will liven up a kitchen working environment or bring a splash of energy to a bathroom and always create an eye-catching design statement. Using vibrant colour on your walls and floors can really change the whole feel of a room.

Bold colour works particularly well when it's the showpiece in the room, so pairing with clean, white units and furnishings is a great idea. Alternatively, add a soft neutral colour to help complement the strong wall or floor colour, as seen in this kitchen below.

Habana Rose

Pastel colour

Soft pinks and blues are very much on trend at the moment and can be used to striking effect. Use pink tiles with a dark, contrasting colour on the wall and your room becomes a real talking point. Don't forget to use a dark grout to match the dark wall and try laying your tiles vertically instead of horizontally, as in this fantastic bathroom image above.

Blues provide a beautiful backdrop to a crisp white kitchen or bathroom and are a perfect match if you are trying to achieve that 'By the Sea' look. Pale pastel blue tiles which mimic mother of pearl and add a touch of shimmer to a room, look simply sublime in a bathroom. Using a light coloured grout with these very soft blues will help to create a calm, relaxed feel in your home.

Shimmer Blue

Habana Alabaster

Stunning bathroom style

Consider using tiles above, around and below your sanitary-ware for a really stand-out design. Stacking these blue pearlescent tiles creates an almost waterfall effect in this stunning bathroom. The light catches the slightly irregular surface and the whole wall glistens and shimmers.

Colour

Earthy tones

If bright, vibrant colours aren't your style then you can still introduce coloured tiles into your home instead using earthy tones. Drawing upon nature gentle tones of heather, grey and pebble create a calm, subtle backdrop to your room. Use these neutral colours alongside a crisp white wall and units or sanitary-ware with a good splash of chrome accessories for a classic and timeless look.

Mixed colours

If you're looking for a truly customised look without the accompanying price tag, then be a bit creative by choosing two different colours of the same tile and create a feature strip, as seen with our Brick Olive and Brick Blanco tiles below. Alternatively, choose different coloured tiles for different walls, as in this beautiful bathroom. However, if you want to go for a really bold statement, then choose three or four colours and place them randomly in the space.

There really are no limits as to how creative you can be with coloured tiles.

Milano Blue

We love it when our customers dare to be different, as with these striking **Milano** tiles. These colourful, glossy and fun tiles are spectacular when used as a kitchen splashback. Using a combination of the plain and embossed tiles along with the contrasting white grout has created a real feature in this kitchen.

Brick Gris Claro

These quirky **Brick Gris Claro** tiles look fabulous when set against the soft, neutral tones of this beautiful Shaker style kitchen. The contrast between the grey tiles and the crisp white walls provides the perfect showcase for the stylish shelving.

Miravet Aqua and Bordeaux Chartres

Tiled by our very own talented Swindon Store Manager, Matt. This great combination of tiles has made this space beautiful. We love it!

Miravet Aqua has been paired with **Bordeaux Chartres**, each complementing one another perfectly. The patterned tile detail in the shower works really well and balances the pattern and the colour.
